Curing light

Tangshan UMG Medical Instrument Co., Ltd

EMAIL: info@umgroupen.com

Curing Light

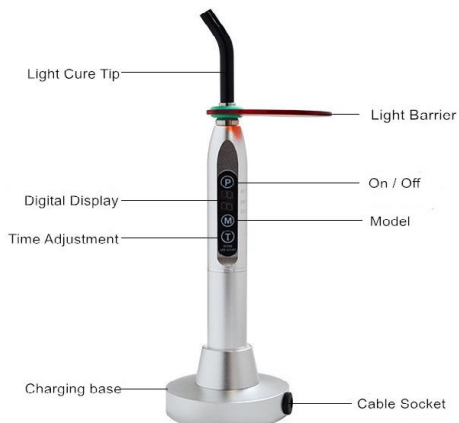

- 1.Environmentally-friendly **plastic shell**
- 2.5w high power led
- 3.High transparent glass fibers
- 4.Three working mode selection strong, gradually strong, flashing
- 5.Automatic standby, automatic shutdown
6. Low battery warning
7. Ultra-high capacity lithium battery
8. For all brands of resin materials
9. Battery voltage: 3.7-4.2V
10. Wavelength: 420-480nm
11. Illumination: 1200-1500mw/cm2
- 12.Color: yellow,blue,silver, black, green, red

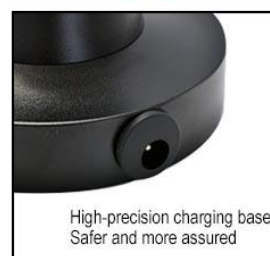

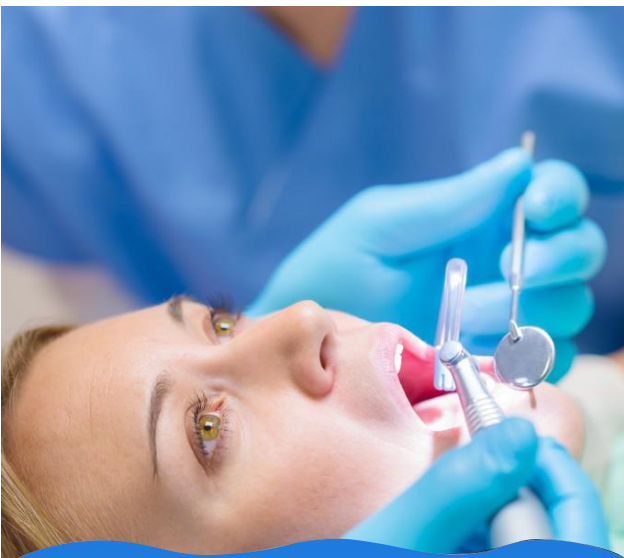

Curing Light

1. Bright aluminum alloy shell
2. 5w high power led
3. High transparent glass fibers
4. Three working mode selection strong, gradually strong, flashing
5. Automatic standby, automatic shutdown
6. Low battery warning
7. Ultra-high capacity lithium battery
8. For all brands of resin materials
9. Battery voltage: 3.7-4.2V
10. Wavelength: 420-480nm
11. Illumination: 1200-1500mw/cm2
12. Color: gold, silver, purple, black, blue, pink

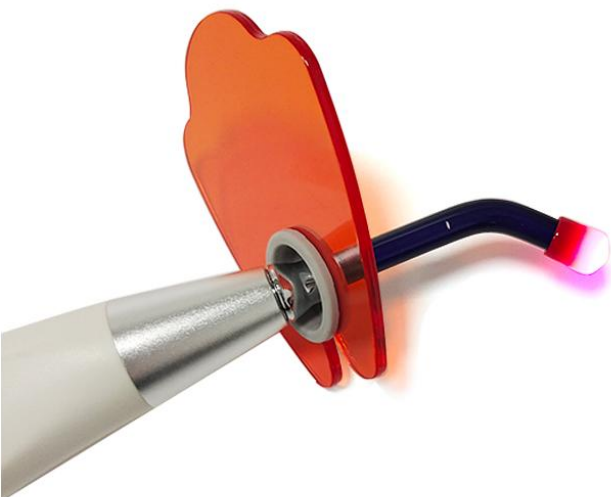

Model	Symbol	Function
01	☐	Strong Light
02	∟	Weakening
03	⏏	Pulse

Curing Light

1. Battery voltage: 3.7V
2. Capability of battery: 1500mAh
3. Light intensity: 1200-2000mw/cm
4. Light wavelength: 420-480nm
5. Solid time and depth: 5s/3mm

Curing Light

1. Battery voltage: 3.7V
2. Capability of battery: 2200mAh
3. Light intensity: 1200-2000mw/cn
4. Light wavelength: 420-480nm
5. Solid time and depth: 5s/3mm

Curing Light

1. Original imported big power LED from USA, colorful metal handle
2. High articulation optic fiber
3. Three working modes: Strong, flash-
ing, gradually strong
4. Automatic power off
5. Low battery detection
6. Super capacity battery

Curing Light

- 1.5W big power LED **plastic shell**
- 2.Three working modes: Strong,flash-ing,gradually strong
- 3.Solidification time:5-40 secretary
- 4Automatic power off
- 5.Memory mode: power memory and time memory
- 6.Membrance keybosrd, feel better
- 7.Environment protection plastic handle

Curing Light**

Broad-Spectrum Blue -Violet
LED Light Source

Curing Light

- 1.Environmentally-friendly white **plastic shell**
- 2.10w high power led
- 3.1 second curing
- 4.Large capacity lithium battery
- 5.Three working mode selection strong, gradually strong, flashing
6. Battery voltage: 3.7
7. Wavelength: 420-480nm
8. Illumination: $>2000\text{mW}/\text{cm}^2$
- 9.Color: white

1

SECOND CURE

1 SECOND CURE

Curing Light

1. Illumination: $>2800\text{mW}/\text{cm}^2$
2. Battery capacity: 2000mA
3. light source Wavelength range: 385-515nm
4. Battery: Lithium battery (120 mins)
5. Powder: 5V DC 1A 100-240V AC 50/60HZ
6. charging station built in light meter
